Escalation of TUI Industrial Action from the 16th November 2026

Dear Member,

Please find enclosed the TUI Industrial action directives escalating the action from the directives issued that applied 12th of October to include the new directives attached applicable from the 16th of November 2026.

All members are asked to read the Directives carefully and to fully comply with the terms of all the current directives. The effectiveness of our industrial action depends on members acting collectively and consistently.

Members should rely only on official TUI information and instructions concerning this industrial action.

The TUI website, www.tui.ie, is the definitive public source of information on the industrial action and should be checked regularly for updates.

Members should not rely on social media posts, WhatsApp messages, media reports, employer communications, or other unofficial sources for an interpretation of the TUI directives. Where clarification is required, members should contact their TUI Branch, Workplace Representative or TUI Head Office.

We are not asking you to neglect your professional responsibilities. We are asking you that were authorised by our ballot result and with formal notification from the Executive Committee to stop providing some of the considerable amount of additional flexibility, goodwill , and discretionary work which the education system increasingly depends.

Other Unions on Work to Rule
Members must not, under any circumstances, take on any work or duties of members of other unions who are participating in industrial action.

Thank you for your continued support and solidarity.

SIGNED
