Health**

**Education
& Awareness**

Awareness saves lives

Cornmarket, Breast Cancer Ireland and the TUI have come together to promote breast health awareness & education to all TUI members.

30%

**of women diagnosed
with breast cancer
each year are
between the ages
of 20 and 50***

1 in 9

**women will develop
breast cancer
in the course of
their lifetime***

Aim

The programme aims to educate TUI members of all ages about good breast health and educate them on how to self check, so that if an abnormality occurs it will be identified early and hopefully provide a more positive outcome.

What will the programme involve?

A Breast Cancer Ireland coordinator will provide a presentation on breast health awareness and using a medically induced mannequin will demonstrate the 8 signs & symptoms of breast cancer.

How long will a presentation take?

Presentations can be online or in person, during lunch time or after school/college and only take 30 mins.

Who can attend?

The programme is open to all TUI members.

How will the programme work?

The team at Breast Cancer Ireland will be travelling throughout the country to deliver presentations to schools and colleges. The programme will be delivered in a phased approach by region. To partake in this programme, register your interest in a presentation today.
